

In the Claims:

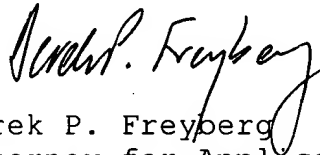

C' 27. The method of Claim ~~25~~³ where the [herpes viral infection] virus is [a] cytomegalovirus [infection].

REMARKS

Entry of the amendment after allowance is respectfully requested. No new matter is added, nor is any new search or examination required, as the amendment simply updates the status of priority applications and brings the usage in Claim 27 into accordance with its antecedent Claim 25.

The delay in correcting the claim error is regretted, but the discrepancy in the claims was only noted in a review of the claims after allowance.

Respectfully submitted,

Derek P. Freyberg
Attorney for Applicants
